Web Tracing by URL

TST-CF Express web tracing by URL will allow you to send your shipment identification numbers in a URL string to our system. In return, you will be directed to tracing results on our web site.

In all cases below, the "lang" parameter is optional (English is the default). Valid values are "e" for English results or "f" for French results. At least one shipment identification number is required. A maximum of 10 are allowed.

Tracing by PRO:

https://www.tst-cfexpress.com/tracing/by-url?lang=e&PRO=NNNNNNNNNN

NNNNNNNNNN : TST-CF Express 10 digit pro number

Tracing by Bill of Lading:

https://www.tst-cfexpress.com/tracing/by-url?lang=e&BOL=XXXXXXX

XXXXXXX : Shipment bill of lading number must be between 3 and 25 characters in length.

Tracing by Purchase Order:

https://www.tst-cfexpress.com/tracing/by-url?lang=e&PO=XXXXXXX

XXXXXXX : Shipment purchase order number must be between 3 and 20 characters in length.

Tracing by Customer Reference:

https://www.tst-cfexpress.com/tracing/by-url?lang=e&REF=XXXXXXX

XXXXXXX : Shipment customer reference* must be between 3 and 20 characters in length.

* If you have a reference numbers for shipments that are unique to your company in addition to the bill of lading and purchase order numbers, you must make arrangements with TST-CF Express to have this number entered in our system during our billing process prior to web tracing.
